To Whom It May Concern:

The Score Group of Companies are a Circor Energy preferred service Company for the complete range of valve products, including KF Valves, Mallard Control, Hydroseal, Contromatic, Pipeline Engineering, Sagebrush and SF Valvulas.

This support extends to modifications in the form of trim changes, End Connection changes and extended stem additions for lagging or Cryogenic service, full engineering and spares back up, qualified field service and repairs support, training and competitive commercial terms.

All modifications are carried out in accordance with Score's ISO 9001-2008 Quality Management System.

This special relationship is intended to provide customers with the very highest level of support, by combining Score Group's valve and actuator expertise with Circor Energy's long experience in the design and manufacture of valve solutions.
