

To Whom It May Concern:

The Score Group of Companies are a DAFRAM preferred service Company for the complete range of valve products.

This support extends to modifications in the form of End Connection changes, spares back up, qualified field service and repairs support, training and competitive commercial terms.

Other modifications as trim changes, extended stem additions for lagging or Cryogenic service, full engineering have to be authorized by Dafram Engineering Department.

All modifications are done in accordance to Scores ISO 9001-2008 Quality Management System.

This special relationship is intended to provide customers with the very highest level of support by combining Score Group's valve and actuator expertise with DAFRAM long experience in the design and manufacture of valve and actuator solutions.
